MAILED-UP COPY OF AMENDED SPECIFICATION

[0003] A waterproofing method which includes filling the filler 6 into the gaps between the electric wires 5 is disclosed in Japanese Patent Application Laid-Open No.[2000-11746] 2000-114746. In this method, as shown in Figs. 2A and 2B, a plurality of electric wires 5 constituting the wire harness 4 are flattened, the electric wires 5 are arranged in close contact with each other and fixed between two electric wire-supporting tools 8, and the filler 6 is applied to each of the arranged electric wires 5. As shown in Fig. 3, the filler-applied flattened electric wires 5 are next arranged in a sectionally circular bundle, and finally the bundle is covered with the sheet 3.
